

hi-Head is the trendiest music hat with built-in speakers and microphone that let you listen to your music and make phone calls. The hat music exists: it is called hi-Head and it is comfortable, functional and keeps you warm throughout the winter. There is no need to remove it when you listen to music or make phone calls because it's all integrated inside! Speakers are placed into an invisible pocket from which they can be removed whenever you want and the microphone is integrated into the fabric cable with switch, microphone and shuffle button. It connects to your multimedia devices (smartphones, mp3 player, tablet ...) via 3.5mm universal jack and can be washed in the washing machine.
